

Expectations,

Hargrave builds custom yachts like the 100' "Cocktails" (pictured below) for leading contractors like Tom Murphy, Jr., head of Coastal Construction Group based in Miami, Florida. He is currently building his second Hargrave, a 125' raised pilothouse.

"No one could be more demanding than Coastal Construction's CEO, Tom Murphy. Tom's home building division creates dream homes that run upwards of \$50 million for Fortune 500 executives and some of the biggest name celebrities in the world. So it's no wonder that his standards are exacting and border on the nearly impossible. If you can please Tom Murphy, your entire company has reached a new benchmark."

– Michael Joyce, CEO Hargrave

realized.
